Gilford Physical Therapy Joins Center for Physical Therapy and Exercise

Nashua, NH, September 29, 2023: Center for Physical Therapy and Exercise (CPTE), a prominent provider of six outpatient physical therapy clinics and over 20 assisted living and senior care locations throughout Southern New Hampshire and Greater Boston, announces the partnership with Gilford Physical Therapy and Spine Center. This partnership allows CPTE to expand their proven success in delivering the highest quality of patient care to another area in New Hampshire.

“Partnering with Gilford Physical Therapy allows CPTE to benefit from the experience and reputation that Donna and her staff have built while expanding our footprint” said CPTE’s Chief Operating Officer, Patsy Wolber. “This is a perfect addition because we both share the same philosophy of the patient being our number one priority.”

Gilford Physical Therapy owner, Donna Lang-Rice, PT, DPT, MDT, will stay as a partner and clinical director. “We are very excited for this partnership. Joining a larger company will allow us to offer expanded services to our patient population”, said Donna Lang-Rice. “We will continue to operate in the same way our community has known and trusted for the past 15 years—the same caring team providing a patient-focused and results-oriented experience.”

The clinic is located at 689 Gilford Avenue in Gilford, NH 03249. Hours of operation are Monday through Thursday 8 am – 8 pm and Friday 8 am – 4 pm. To make an appointment, call 603.528.4152. For more information, visit www.GilfordPhysicalTherapy.com.
